Welcome to my August fixed price list. It has been a couple of months since most of you have heard from me. I hope you have had an enjoyable summer. The last two months have been very busy in the rare coin business. The recent A.N.A. convention in Cincinnatti was especially active.

We have several major "copper" events coming up. The auction of Jack Robinsons collection to take place next January will be comparable to the Robbie Brown sale of two years ago. Couple this with the upcoming Oechsner,and Norweb sales and it guarantees an exciting Fall & Winter.

While this list may not compare in spectacularity with these sales there is some nice Early Copper, maybe even a spectaclar coin or two. For instance the VF30 1804 C-7 with cud would do credit to any collection of Half Cents, the 1804 C-5 is a desirable specimen as well. A nice S-3 Chain Cent highlights the Large Cents along with a choice Very Fine S-190, a VF S-240 and a superb EF S-267. There are some exceptional Middle dates including a choice AU 1817 15 Star,and several condition census level late dates.

I will be attending all the major Copper sales in the coming several months as well as several conventions. I'm always happy to meet my clients in person. Please stop by and say hello. I will be attending Stacks Oeschner sale NYC Sept 8-9,,Greater NY Numis Con. Sept 8-10, Long Beach Numis Expo Sept 29-Oct2, St Louis Nov 10 & 11, Norweb Sale NYC Nov13-15.

WE OFFER THE FOLLOWING TERMS OF SALE

1. All Coins GUARANTEED Genuine - This is a LIFETIME Guarantee!
2. All attributions are guaranteed correct - also LIFETIME Guarantee!
3. The IDENTIFIED POPULATION estimates (RARITY) of varieties change as more pieces of Copper are attributed, and it is IMPOSSIBLE to have an ACCURATE rating! But, we do use the most up-to-date data available - as reflected in "Copper Quotes by Robinson". (CQR)
4. STRICT ANA & EAC guidelines are used in grading, which consist of assigning a grade based on the state of preservation/wear of the piece. We then describe the condition of the coin so that you will have as good an idea as possible of what the coin looks like without actually being able to see it in person. It is our intent that there be NO SURPRISES when you receive the coin. Virtually all old Copper has accumulated some marks in their lifetime since leaving the Die/Mint - It is our intent to describe any such marks of significance. We now introduce a new term - VALUE GRADING!!

   Sharpness Grade is far easier to describe in consistent terms, and where there may be circulation defects such as porosity, gouges, rim dinges/nicks/bruises, corrosion and other such detractions, arriving at a NET GRADE is certainly subjective at best. The grade that we have assigned on the first line describing each coin is intended to represent this NET GRADE/VALUE GRADE.

   If the Second Line does NOT start with a Sharpness grade, then it is our opinion that the NET GRADE of the coin is the SAME AS the SHARPNESS GRADE of the coin, and that there are NO SIGNIFICANT defects worth mentioning. Perhaps NOT PERFECTION, but whatever marks or other elements that may be present, do not deduct from the over-all appearance/grade of the coin, and are mentioned for accuracy.
5. A Full 30 DAY return privilege is allowed for any or no reason. Our business is based upon attracting repeat customers, and it does none of us any good for you to keep a coin with which you are not completely satisfied. The 30 day period is an approval period, and we welcome any of our customers to show their purchases from us to any other EXPERIENCED EAC member for another opinion. Sales are final after the 30 day period, but we will certainly consider extensions in this time limit upon any reasonable request.
6. All coins are guaranteed to meet ANACS certification for grading! Any coin graded lower by ANACS can be returned within 120 days for immediate refund of the full purchase price plus all ANACS certification service fees.
7. All orders are sent postpaid.
8. Approval service is available to established clients with 7 day terms.

We are always interested in buying Early Copper & Type Coins! If you have coins to sell, we would be happy to have you contact us. We are willing to PAY STRONG PRICES for NICE coins. We will also accept coins on a consignment basis at a reasonable commission. Please feel free to contact either of us with ANY questions that you may have:

COMMENT

the world is too much with us late & soon
getting & spending we lay waste our powers
too little we see in nature that is ours

William Wordsworth

Day after day after day I receive "investment newsletters" through the mail each one offering me the "unique opportunity" to reap profits beyond my wildest dreams without doing any work,providing any service, creating any product. these range from plain old chain letters to complex leveraging of silever or gold mining stocks. Many of the schemes involve "rare"coins. All have one thing in common, the appeal to greed.

A couple years ago Ivan Boesky spoke to an enthusiastic group of business school students at a major university." You can be greedy and still feel good about yourself" he said," Greed is alright... greed is healthy!" the students applauded wildly. Why should'nt they? The man was hugely successful, & very wealthy. In one year, 1984 Boesky had made $115 million on the takeovers of Getty oil by Texaco & Gulf oil by Chevron. Unless you count a few bribes to obtain inside information he had committed no transgressions & the takeovers "had hurt no one".

Similarly other corporate raiders have become wealthy "attempting" to take over large corporations. During two months in 1985 Carl Icahan & T. Boone Pickens made seperate attempts to take over Phillips Petroleum. Phillips ultimately remained independent. But only after Ichan & Pickens had been "paid off" to the tune of fifty & ninety million dollars respectively. Subsequently hundreds of Phillips employees were laid off. A major university was virtually shut down due to loss of funding. The economy of the town of Bartlesville Okla.,where Phillips is headquartered, was devastated. In the months that followed there were suicides,divorces & bankruptcies attributable to the Phillips take overs.

Well, maybe I'm being a bleeding heart here. Big business isn't a game it's expected that you play "hard ball". You know,"if you can't stand the heat stay out of the kitchen" Still I don't think we need to make heros out of these people. T Boone wasn't invited into Phillips kitchen. He kind of busted in with a flame thrower " gee I just wanted to roast a few marshmallows" says T Boone" But for 90 million I could go to boy sccout camp." Ivan Boesky has been determined to be a criminal. He is now in jail in Lompoc California. Or it's a country club kind of jail & he will be out in a year. Really though he isn't in prison for having used inside information. Most people probably feel that having inside info was part of Boesky' job. Knowing what is going on and what is likely to go on in the stock market is what a trader is supposed to do. Boesky is in jail because his greed got out of hand. His greed grew to where it was felt to be a danger. So now he is out of circulation for a while.

When the stock market crashed October 19 everyone looked for a scapegoat. It was the fault of the bankers, the money supply, the American worker, the strength of the yen, the computerized traders on & on. Maybe the market really crashed in November 1986 when revelations concerning the dealings of Boesky, Dennis Levine,Robert Wilkis,David Brown & Ira Sololow became public knowledege also implicating other prominent financiers & major financial institutions. The most startling revelation was the incredible,far reaching baroque excesses of greed that drove the principal villians. Why were these men paid salaries & commissions of hundreds of thousands even millions of dollars per year if not to insulate them from the need steal? Ultimately I believe the public, you remember the suckers that actually buy stock for security/investment, lost confidence in the market,e.g. had a bellyfull of the greedy bastards. That loss of confidence climaxed in the stock crash in October.

Recently at the ANA it was discovered that a prominent dealer has been involved in the marketing of counterfeit PCGS slab coins. The extent of the distribution and the number of slabs involved is as yet uncertain. PCGS is being fairly closed mouthed about the problem. All evidence though

indicates that the counterfeiting has been going on for some time, probably about six months and that a subtstantial number of coins, possibly several thousand are involved. It appears that the coins are primarily gold, most of them St Gaudens twenty dollar gold pieces. The most incredible thing about this is that the individual involved, ( ), is a prominent dealer in dollars and gold. He has been in business for over a decade. In a market like the present one he should be making close to a quarter of a million dollars a year. Now, in all likelihood his business life is over. He may end up in jail. Moreover this one mans greed has radically affected the market for PCGS coins. He has cost others thousands of dollars in lost business. Although PCGS is furiously attempting to control the damage, the long term consequences of the counterfeiting,and subsequent loss of PCGS credibility will be substantial. This event could conceivably be the catalyst for federal intervention and regulation of the coin market.

We EACers feel largely insulated from this sort of thing. There is not the huge amount of investor hype. When the Robbie Brown sale took place two years ago the focus afterwards was not on the profits Robbie had made but on the collections that had been completed as a result of the sale(Jack Robinson's Sheldons,Dan Holme's Middle Dates). There was much talk about the excellence of the catalog, there was some discussion of how quickly Robbie was proceeding with the completion of his second set, but there was nary a word about "the big score" Robbie had made or about the "huge profit potential" of the coins that had been purchased. The people who buy Large Cents do so for a different reason. They don't seek a profit, they seek something that is more akin to a relationship almost a friendship with their collection and the individual Cents that go into it. If there is any sort of greed to which we EACers are susceptible it is of another sort. It is manifested in an inability to prioritize our wants. An unwillingness to wait or build for the future. Occasionaly the commaraderie gives way to rivalry when a particularly desirable Cent comes up for auction. There is the envy most of us occasionally feel towards those we perceive as having a bigger war chest,or more extensive contacts,or better luck. But basically I think most of us realize that the enjoyment we get from the old coppers is rooted in the club itself. We enjoy them because we get to share them with each other. Perhaps the feeling I am referring to was best expressed by Ted Naftzger at this years EAC meeting. Ted discussed his collecting history and his conclusion captured the essence of what makes EAC special.

'Let me leave you you with a wish list. Well you might expect that my wish list would contain a mint state 93 Cap, perhaps an AU S-144,217.or S-264; perhaps an EF starred reverse an EF S-37 or a VG Strawberry Leaf. No, I think you might be surprised but my real wish list would go like this. I wish I had met Homer Downing. I wish I had met Harold Bareford. I wish I had known B.G. Johnson, or Floyd Starr. And it it would have been grand to have known William Blaisdale earlier, Hy Halpern and Doug Smith earlier, just to suggest a very few. To have learned more and sooner would have been nice. The game has brought wonderful friends. Our common interest, our study, and our correspondence our friendly rivalries, our friendship has been a source of delight."

It's possible that some of you reading this still have'nt joined EAC. If you have'nt you're really missing something. If you really love early copper you will eventually join. And you'll wish you had done so earlier.

Tell you what. For any one receiving this catalog not yet a member of EAC. Write me and I will pay half your first years dues. Just send me a check for eight dollars,I'll add the other eight and send in your application. Moreover, if after the first year you decide membership in The Early American Coppers Club has'nt enhanced your collecting, let me know and I will personally refund your initial eight bucks.

Chris
